LUNAR LIGHT.

THIS LAMP burns with a pure white brilliant light equal to gas, and it much cheaper than gas. The Luar Light took the first premium at the last Mechanios' Fair in Louisville. One dollar's worth of Lunar Oil gives the light of \$3 16 of Lard Oil, \$4 36 of Whale Oil, \$9 45 of Burning Fluid, \$14 26 of Candles. Half a pint burns 15 hours, costing about 5½ cents, giving a light equal to 5 or 6 star candles. Lunar Oil is not explosive, has no disagreeable smell, and is not liable to smoke. Lumps suitable for all purposes.

Premonitions of the Free-Nigger Pow Wow. A few of the delegates to the Opposition Con vention-half a dozen, perhaps-have made their appearance in our city. They have not caused business to suspend, nor turned the inhabitants of our quiet town crazy. All things seem to be gong on as if these dignitaries were not present. One of these delegates holds in his official pock et the manuscript of the Hon. Joshua F. Bell, de clining to be sensible to any honors that the convention of the 22d can confer upon him. Some of the intense say, however, that this wont do, and that Mr. Bell must appear in propria persona. A messenger has been dispatched for him, with he design of bringing him here, whether he wants come or not.

We don't suppose that the Hon. L. W. Anrews, and other aspirants, will like the efforts made to get Mr. Bell here, but they can't show nore dislike than Bell has already manifested .-Bell declined through his home organ, the Danille Tribune, to have anything to do with the nongrel convention, and again has dispatched a writing over his own signature to the same effect. He has seen enough of Know Nothingism, Amerianism, Oppositionism, etc., to satisfy him that he less he has to do with the monster, under whatever name it is known, the better.

We think the convention has managed things badly. Grand Secretary Duncan ought to have had a candidate arranged by secret circular .-Perhaps he has done so. He is great at secrets and circulars, and may astonish the convention with a candidate ready to be nominated and to

CRYSTAL PALACE THEATER.-Manager Mellus announces a reducion of prices this morning, at the old favorite place of amusement, corner of Green and Fourth. This will be agreeable news to the community at arge, especially to that portion who understand he philosophy of amusements, and appreciate the efforts of managers to afford those of the most refined nature. We say agreeable news, but do ot mean to insinuate that any individual has ever egrudged the seventy-five cents he has deposited with the urbane ticket seller at the box office .-The agreeability arises from the fact that every gentleman will feel like taking a lady whenever e attends the Theater, as the two tickets cost or the triffing advance of twenty-five cents. Here here is gain on all sides: the young man is acompanied to the play by his lady friend, gets uble enjoyment from the performance, and Iren-Stone China, and Earthenware, aves fifty cents; the manager sells two tickets stead of one, and makes twenty-five cents in eash by the operation; and above all, the performers, in their mimic world, finding large audiences before them, gain new strength for their arduous asks, and redouble their exertions to please their riends, that they may receive that unctious balm o an actor's soul-appreciative applause.

There is no doubt at all but that the upper tiers ill be crowded hereafter, at the low prices, which will be twenty-five cents for the second tier and afteen cents for the third. Every boy can go to the theater now, and improve not only his manners but his morals. Twenty-five cents is easily earned, and the manners of the stage are always worth studying, while his morals will certainly be improved, as he is kept from the mischief of he streets.

Mr. Neafie commences on the second week of his engagement to-night, appearing in his favorite character of Jack Cade. It is a play well China Shop" follows.

WHARTON'S FURNITURE WAREROOMS,-Jno. A. Wharton, an old dealer in the furniture trade, on Market street, above Brook, has enlarged his business by taking the adjoining store; and he has now a very large wareroom. It is crowded from he first to the third floor with furniture and arcles for housekeepers, of all varieties and decription, at prices to suit purchasers. His falities are such that he can offer bargains as good if not better than can be elsewhere obtained. While his store is stocked with articles in this line as elegant as tasts may demand, he also keeps second-hand furniture for those whose neans are more limited. Those who are declin ng housekeeping will also find a liberal bidder in Mr. Wharton, by application as above. As those who want to buy will examine for themselves, we do not refer in detail to what he offers to the public.

It is thought by some that the Opposition ists of the to-morrow's convention will choose another name for themselves if they assemble in good numbers, and call themselves the Twentysecond-of-February-ists, or something of that kind. Wonder if they will oppose every other day in the year if they take this name?

MURDER AND SUICIDE.—Mr. Ruben S. Price, of this city, received a letter from a relative yesterday, residing in Poweshiek county, which contained the following account of a horrible murder and suicide in Brooklyn, in that county. The letter is dated the 11th:

There was quite a serious affair happened at Brooklyn last evening. It appears that the evening before a man got out of the stage at Brooklyn. He said he held the post of Second Lieutenant at Fort Laramie, and was on his way

Agreeable to expectation and announcement both ends of the Hannibal and St. Joseph Rail both ends of the Hannibal and St. Joseph Railroad were made to meet on Saturday evening last, the 12th inst., and the first through train from the Mississippi, Father of Waters, reached here on Tuesday evening, thus uniting by iron bands the two great rivers, and drawing the great West into the middle of civilization. [For the Louisville Courier.] Political Matters in Anderson County.

Editors Louisville Courier: The Democratic

Convention has assembled at Frankfort, and deci

ded as to who shall be their standard bearer in the ensuing contest. A nomination by that convenion is equivalent to an election. It may, thereore, be interesting to the numerous readers of your paper, throughout the State, to know what the feeling is in each county in the State with re-the feeling is in each county in the State with regard to those nominations. The Anderson Demoerats have never faltered in any contest, nor do they intend to do so in the future. They feel that in the fight before them success to their principles is but a question of time; the only thing that hey are anxious to know, is what is to be the maority of their party in August next. They feel roud of their leaders, and intend to roll up for them an increased majority over any they have yet given. Beriah Magoffin is well known to us; he is our neighboring countyman, and is in our own Senatorial District. We consequently know how true he has been to our cause, and how he has labored for its success. We intend, there fore, to give him our undivided support. Of the second upon the ticket, we may more properly speak, as he lives in a distant portion of the State, and is known to a majority of the people of Anderson, not personally, but by his acts alone. Mr. Boyd has been marked, in his political course, by his constancy to his party principles, and by his indomitable energy in carrying them out. For more than a quarter of a century, we have both ore than a quarter of a century more than a quarter of a century we have both beard and read of Linn Boyd, of the First District, of his high social qualities, his consummate talents, his integrity of character, and his extreme devotion to the Democratic party. He has been known to us as one of the few who have never deviated from their political creed, however brightly may have burned the fires of persecution. We have known him as a war-tried reterm, who here have known him as a war-tried veteran, who has ome out of every contest with our enemies un-cathed and with colors afloat; and though watched throughout his political career, by the argus eyes of an unscrupulous opposition, passed the ordeal; while friend or foe could only urge against him that, like the Roman Scipes, he carried the war into Africa. The overwhelming majority that has al-ways greeted the Democracy, whether in defeat or victory, from the noble First, has told full well how true was this policy. The Democracy of lit-tle Anderson, with one accord, say, hurrah for

Linn Boyd.

The Congressional race is attracting some attention in the county of Anderson. The general expression of the Democracy of Anderson is favorable to J. H. Jewett, our present Representative in Congress. They say that he first fought under adverse circumstances, and redeemed the district from the thraidom of the fees of the Democracy and the Linconter to the Properties of the Democracy and the Linconter to the Properties of the Democracy and the Linconter to the Properties of the Democracy and the Linconter to the Properties of the Democracy and the Linconter to the Properties of the Proper of the Democracy and the Union, at a time when there hung over the political sea a cloud which threatened to lash it into a commotion that would robably have wracked the good old ship of State; ta time when there was to be found no chamon willing to dare the danger and lead our fororn hope. It was then that the gallant Jewett, the a true son of Democracy, took the field, and by his eloquent voice infused renewed zeal into ne breasts of his crest-fallen party and won the ictory for them; that he ran the second time by he almost universal consent of every county in he district; that he has from the first represented the best interests of his constituents; that he has since, by his fidelity to the Union and the principles of the Democratic party, acquired an influ-ence in the national councils, which is truly envi-able, and of which they, as his constituents, feel proud; and that he has presented to the people an unblemished record. They are, therefore, discosed to support and sustain the Hon. J. H. Jew-tt, whom they consider as one of the very few rue representatives of the people. Why, they ay, should we, just at the time that he has acquired a knowledge of legislation and a position mong his fellow-representatives which renders im able to truly represent his district and be setul to the country at large, turn him off for an antried servant? This position and influence they contend is not to be acquired, but by being repeatedly returned to Congress, with the fullest dorsement of his district. It is most probable that the county of Anderson, from the feel evinced, will not consent for Jewett to decline, or for any other to run in his stead.

feelings of gratitude the communications of your in the formal remembrance of the capture of Fort Henry county correspondent in relation to our Niagara by the united forces of Britain and the say that he but echoes the sentiments of hundreds of his constituents, when he says that "his triumph over A. K. Marshall" was "the most splenlid victory that was achieved in the summer of 857 in the State." And we believe, furthermore, that if Hon. James B. Clay should decline to fight another battle for his country, that Mr. Porter will be the very best man to lead the gallant Ashland Democracy to another victory over the proscriptive heresy once called Americanism-K. N. sm-but now called the "Opposition to the Modrn Democracy." Mr. P. is one of the soundest Democrats in the State, and has served his con-

stituents, in the capacity of Senator at Frankfort, with honor to himself; and a general approbation from political friends and foes is the welcome plaudit upon all hands. Mr. Porter redeemed this Senatorial District from the thraldom of Know Nothingism, when that monster was in the zenith of its glory—when the war-whoop was heard from Dan to Beersheba, "Let none but Americans be put on guard"—"Americans must

Mr. Porter, like Murat, whose significant crest was always seen in the hottest of the battle, was always in the enemie's ranks, not fight-ing for them, but breaking their front, sea-tering their confused and ill-disciplined troops, and causing victory to perch upon our banners.— If, as your Henry letter-writer says, Mr. Clay will ot consent to lead us on to another glorious victo T. P. Porter will suit the masses for the responsi ble position of Congressman from the Ashland Dis-trict. And Allen L. McAfee is the one upon whom we now fix our eye to fill the place which Mr. P. will vacate—for if he is not run for Congress he will vacate—for it he is not run for Congress he will be run for the State Senate, which will be equivalent to an election, if he consents to run. I simply make these few remarks to show that there are people in Jessamine who love Mr. Porter for his gallantry, and are willing to

elevate him to a position, the duties of which will cause him to show what a man he is. Clay, first, Porter, Next, is the order of the day!

The London Times declares that France has placed herself in a position in which she is not altogether mistress of her own conduct. She has gone so far in supporting the cause of Piedmont against Austria that she has placed it in the powagainst Austria that she has placed to in the power of that small State to drag her into hostilities whenever she pleases. Let a revolt arise in one of the Dutchies or Legations now occupied by Austrian troops; should Piedmont seize upon the occasion to intervene on the other side, she can, by a single precipitate escapade, render it impossible for France, with any respect for her honor acceptance of the property of the proper or consistency, to avoid a declaration of war against Austria. Austria has advanced her forces to the left bank of the Ticino, the Sardinian army confronts her on the right, every day is full of danger, and the first shot that is fired may find a dreadful echo in a hundred battle-fields as yet in-

As to the probable direction of the campaign, should hostilities occur, the London correspondent of the Manchester Guardian writes: "I find, from conversation with intelligent Eag-lish travelers just returned from Italy, as well as with Piedmontese and Lombards resident here, Louis Napoleon has purchased the admission of the most disreputable scion of his disreputable stock into the proudest and most ancient of European Royal Houses; and that the poor Iphigenia of this tragedy has not been sacrificed for nothing. They express themselves as assured that there will be no revolutionary rising in Lombardy—not for lack of will, but because the very first condition of it is wanting—the people have no arms. There are Lombard cities of 50,000 population—Mantua for example—in which I am informed that you will not find 10 guns in civilian hands; even all the permissions to carry arms—equivalent to our game licences—have been withdrawn. The real point of danger is said to be in the Duchies, Parma for instance, where the slightest disturbances would lead to an intervention of the Austrain garrison of Placenza, which would be sure to draw on a counter intervention of Piedmont.

The Piedmontese Consul General at Parma has lately been summoned to Turin, and has had in-terviews with the King and with Cavour, at which he is thought to have received his instructions.

24th of December, after a six months' session of the
convention called to frame it. The President to be onvention called to frame it. The President to be elected under it is not to assume office till Jan. 20, 1860; and meanwhile Gen. Castro, who, though a protege, and formerly a warm partizan of the Monagas family, yet took the lead in its over-throw, has been appointed President ad interim, with the command of the army, and, in addition to his other emoluments, a pension for life of \$300

was cordially received by Castro, and very enthu-siastically by the people—not, however, entirely to the satisfaction of all the parties having a share n the present administration, some of whom were Castro to rule the country. Some recent outreaks in the interior and in the island of Marga-ita, the first that have occurred since the deposition of Monagas, give signs of political discon-tent. It is stated that an amnesty has been proclaimed, extending to all political offenders, ex-cept ex-President Jose Tadeo Monagas, who is declared a traitor and perpetually banished. Yet, according to other accounts, some of the connex-ons or adherents of the Monagas family still emain in prison. Jose Tadeo Monagas is in

Trinidad, and as he still has a party in the counry, is an object of seriou sapprehensions.

The new constitution gives to the electors a direct vote by secret ballot. It abolishes the cumorous old Spanish system of passports, and the old-fashioned criminal procedure, according to which an accused party was obliged to answer in terrogatories, with a view thus to obtain evidence against him. Another provision, based on the experience of the county with the Monagas family, that no person can be a candidate for the residency who stands within four degrees of re-tionship to the incumbent. This, with the abotion of the Council of State, are the principal changes from the old paper Constitution, which, however, did not prevent the Monagas family from introducing a complete tyranny.—N. F.

THE PICCOLOMINI EXCITEMENT .- This famous Italian prima donna will give two grand concerts n this city on Friday and Saturday evenings, February 25th and 26th, at the Masonic Temple. She will be accompanied by the principal artists of the Academy of Music, New York. Public expectation has been aroused to an unwonted pitch

by the sudden and unexpectedly brilliant career f this wonderful young lady, and it may be safely asserted that never was curiosty more gratified. There is something peculiarly impressive in the fact that a young girl of little over twenty years of age should be destined to renew in Italythe cradle of song-the popular outbursts which attended the advent of a Malibran or a Pasta; and that, for three years in succession, she should have eclipsed the efforts of Grisi and a Bosic; particularly when it is remembered the very short time she has been before the public has not permitted her to appeal to them on the bare merits of an excessively ornate style. M'lle Piccolomini's art efforts are, in truth, the result of pure inspiration, aided by a freshness of voice and a spontaniety of style rendered irresistible by the artless

fascination of her by play. That our citizens will give her a reception she will long remember we have not the slightest doubt, and we can only advise our readers to keep the guage of their enthusiasm below the explo sive mark.

As we have before announced, the sale of seats vill commence on Wednesday, February 23d, at o'clock precisely, at the music store of D. P. Faulds & Co., Main street.

There was a time when the term "patent nedicine" was considered enough to condemn any article of the kind. Physicians declaimed against them as "secret nostrums," and the pubc were afraid to use them because they did not know their composition. But Dr. John Bull has effected a revolution in the trade. He proclaims penly to the world the component parts of his preparations, and the proportions in which they re combined. This manly course has disarmed even the prejudices of physicians themselves, and many of them now prescribe his Compound Pectoral of Wild Cherry, in affections of the throat and lungs, in preference to any prescription they can have prepared by a druggist. Those who try t once never abandon it for any other remedy.

Dr. Stone gives his last entertainment at Masonic Temple to-night. Those who have atended and witnessed the Doctor's experiments n previous evenings will require no urging to go gain, and those who have not been will lose a rare intellectual treat if they fail to go this evenng. On Friday night last the Doctor's success certainly was most truly astonishing. Among the subjects operated upon was a well known professor of music of this city, who was made to believe himself a celebrated opera singer, and he entertained the audience highly by singing two or three ceautiful ballads, accompanying himself upon an imaginary piano. Go early to-night and secure

> STORM SATURDAY NIGHT .- Between 9 and 10 clock Saturday night, a frightful wind storm followed by a heavy rain, visited this city. And although the wind howled in fury and great force, and the rain poured down in torrents, yet but trivial damage was occasioned thereby. A number of telegraph poles were prostrated, some trees blown down, shutters and signs released rom their fastenings-and that was all. As after a storm comes a calm, so the sun rose

In our river news columns will be found full and interesting Borie, whose confectionery establishment is just across from our office, advertises candies, fruits, toys, etc. The candies manufactured at this estabishment are in high repute in South and West, and we have every assurance that the proprietor will continue to make them as sweet as sugar. The kisses, for which his store has also been fa mous, will, as heretofore, excel everybody's, except hose made by pretty women. Theirs, however,

The managers of this affair, which takes place at Masonic Temple to-morrow night, intend that it shall be a splendid affair. The company will, we understand, be quite large, but not uncomfortably so. We hope that it may be a day of rest, generally observed in the city, in honor of the Father of his Country. Those who are not patriotic enough to make the day a holiday in honor of Washington, should make it one of mourning for the convention to be held here in

LOUISVILLE: MONDAY,.....FEBRUARY 21, 1859.

Italy and Her Neighbors-Sinews of War. In the days of the Cæsars Italy was bounded atic, on the south by the Ionian, and on the west by the Mediterranean sea. The territory embraced within these limits made an area of 118,856 square miles, equal to three such States as Kentucky. Her people carried their victorious arms into every known land, and ruled in Europe, Asia, and Africa, with the pen and the sword. It was the garden of the world, the eve of the na tions, the sovereign of sovereignties.

In these days of her glory, Italy, extending from the Alps on the north to the Ionian sea on the south, and from the Adriatic on the east to the Mediterranean on the west, was one country, ruled by one people. It was then in the zenith of Roman fame, and the historian Pliny estimated its extreme length from Augusta Praætoria, at the foot of the Alps, to Rhegium on the straits of Messina, at 1,020 miles, and its greatest breadth from the mouth of the Arsia, on the east, to that of the Varus on the west, at 410 miles. The same writer puts down its population at 14,000,000, among whom were the poets, the orators, the historians, the philosophers, the statesmen, and the soldiers, whose fame will forever fill the world. The Italy of the Cæsars, however, is now but a

name. The same noble country is there, and the same sun, and moon, and stars, and deep blue sky, look down upon it from the eternal snows of Mont Blanc to the warm wave of Messina, and from the Mare Supernum to the mighty Mediterranean; but all else is changed. The people who dwell in her cities, and cultivate her fields, are no longer bound together by a common national tie. The centuries which have passed since the Illyrians, the Veneti, the Etrurians, the Greeks, and finally the Gauls joined the aboriginal Itali, to make up a common Latin race and tongue, have wrought mighty changes, and the centuries which are to come will bring about others. The generous soil and kind climate of the Peninsula have ever made it the prey of rival nations, and forever will. It has been under more rulers than any country on the globe, but its number of masters is not yet completed. The future has more than one rod of and this history of the ruler of nations will not be closed until the nations have in turn ruled her.

The present state of things in Europe indicates that France, Austria and Sardinia, are struggling ing the first empire, and that all was lost in 1814. He has therefore consummated a marriage between the Prince Napoleon, a fifty year old blase, and the rincess Chlotilde, the fifteen year old child of the King of Sardinia. Victor Emanuel has no son who can inherit his throne, and as the Salic law is in force in his kingdom, his daughter cannot wear the crown of Sardinia. It is possible, therefore, that the understanding between the Emperor of France, the King of Sardinia, and the Prince Napoleon, is that the latter shall inherit the throne of Sardinia. Such being the fact, there are reasons for Sardinia, France and Austria to contend for dominion in Italy-the first to embody all the different divisions of Italy into one grand kingdom, as of old; the second to regain for the Napoleon family the empire once acquired by its founder; and the third to hold on to present possessions, if not to acquire others in the Peninsula. And if such are the designs and the understand. ings of these powers, it will be interesting to note he sinews of war with which they will begin operations. The following statistics, as to the military power of these rival countries, show that Italy will stand no chance, in her present dismembered state, and indicate that the other powers will have things their own way, if no outsider, such as Russia, Prussia, or England, shall interfere.

In 1854, the army of France consisted of 371,244 infantry, 71,031 cavalry, and 58,972 artillery, making in all 401,247. Since that time, the total number has been increased to near \$600,000. At the same time, her navy consisted of 53 ships of the line, carrying 5,096 guns; 58 frigates, carrying 3,955 guns; 39 correttes, carrying 868 guns, and 140 other vessels, carrying nearly 2,000 guns, making an aggregate of 290 vessels, carrying 11,733 guns. She also had a steam fleet, consisting of 3 ships of the line, 20 frigates, 30 corvettes. and 64 other vessels-in all 117, with an enrolled naval force of 100,000 men, besides 12,000 marines. Since that time she has built 150 steam vessels, thereby making the total number of her steamers 267-nearly equal to her sailing vessels. To sustain such an army and navy, France has a population of \$5,779,222, and an annual revenue of \$267,688,620, with unlimited credit in the money market of the world.

Sardinia has an army of 140,000 men, and a navy consisting of 60 vessels carrying 900 guns, Her population is only 5,090,245, and her annual revenue about \$26,000,000. She is a small power when taken alone, but when joined to France becomes mighty. Her army and navy would swell the fighting force of France to nearly 900,000 men, her navy to 620 vessels, her population to 40,000,000 and her annual revenue near \$300,000,000. This would be the military force to contend with Austria for dominion in Italy. Let us then see how stands the war power of the latter country.

The population of Austria in 1854 was 36,514. 466. If that of the Crown lands be added, the total would be about 48,000,000. Her standing FAMILY SEWING MACHINES. army in time of peace numbers 414,000 men, and in time of war is increased to 639,659. Her navy consists of 6 frigates, 5 corvettes, 7 brigs, 66 smaller vessels, 11 steamers, and 9 gun boats; in all 104 vessels, carrying 742 guns. The annual

revenue of this empire is \$117,950,000. It is evident, then, that if these three powers get to fighting about Italy, there will be terrible battles fought. The superior discipline of the French army, however, and the colossal navy at the com. mand of Napoleon, leaves but little doubt as to which power could conquer. There is no telling, however, what might happen if all Italy should join Austria in such a conflict. As a matter of course Italy would stand no chance against the armies of either France or Austria, but if she should rise as in days of yore and join Austria,

Napoleon would find his hands full. Leaving Sardinia out of the estimate, the population of Italy would be about 20,000,000. This, however, is not an united, but rather an antagonistic, population. Instead of being under the mand of a single sovereign, as in the days of the Cæsars, it is divided out under half a dozen Austrian-Italy, or the Lombardo-Venetian. Kingdom, contains 5,000,000, the Kingdom of Naples 9,000,000, the Pontifical States 8,000,000 the Grand Duchy of Tuscany 2,000,000, the the Grand Duchy of Tuscany 2,000,000, the Duchies of Parma and Modena 2,000,000, the Republic of San Marino 8,000, and the Principality of Monaco about the same number. It requires

some of them are as hostile to one another as to any foreign power. It is not probable, therefore, that they would unite and fight as the old Romans did, in a common cause against a common foe .-King Bomba would demand one thing for Naples, Pius IX another for the Pontifical States, Ferdinand another for the Grand Duchy of Tuscany, the Dukes of Parma and Modena another for their Duchies, while the little Republic of San Marino and the Principality of Monaco would not be likely to agree with the policy of Lombardo-Venitia. France, moreover, has already a foothold in two copies \$20.

No paper ever sent unless paid for in advance.

See first column on first page for particulars as to Rome, while Austria occupies Lombardy and Venice and Sardinia is really a portion of the Peninsula. Under such circumstances it would be difficult for the Italians to determine which of the three powers they loved least or hated mostespecially while they saw that each of them was trying to whip out the other and get the entire

ontrol of the country. With the exception of the King of Sardinia and the Emperor of Austria, who hold the North of Italy, the other petty sovereigns who possess the remainder of the empire of the Cæsars can't raise a war-making revenue, nor muster a respectable European army, nor float a commanding navy .-Naples, occupying the Southern portion, has a revenue of \$20,000,000, an army of 106,000, and a navy of 40 vessels, manned by 6,000 sailors, and carrying six bundred guns The Papal States in the center have a revenue of \$12,-000,000, an army of 17,000, and a navy of two steamers and a few small vessels. The Grand Duhcy of Tuscany and the Duchies of Parma and Modena, all together, have a revenue of \$8,000, 000, an army of 25,000, and a navy of about 3 vessels, of an inferior size and character. The total revenue of Italy (Austrian and Sardinian Italy excepted) may therefore be put down at \$40,000,000, its army at 148,000, and its navy at

guns of an inferior size and quality. We have thus gone over the military power of Italy, and her immediate though unneighborly neighbors.

It is evident that if they fight, there will be no child's play upon the tented field. It is equally evident that while they are at war, France can have but little to say about the United States and Cuba. Napoleon's hands will be full while cop ng with Austria; and England, Prussia and Rus sia will have enough to do to watch the progress on the north by the Alps, on the east by the Adri- of battle at home, without prying into what we are about over here in regard to Cuba.

The name of James Guthrie, of Kentucky, has come quite prominent in the list of those whose fitness for the nomination at Charleston is beginning to be discussed by the politicians and the people. Napoleon III remembers that Napoleon I brought all of Italy under France durour conviction that the late Secretary of the Treasury will present pretensions that will challenges thorough canvass and engage the earnes support of many of the most judicious and saga cious of the Democracy.

THE NEW ORLEANS MURDER.-Fuentes, who murdered his mistress, Maria Rodriguez and escaped, was subsequently captured. The Pica yune gives this account of his confronting her: She was then asked whether she could reco ize the man who had wounded her, and repl and see if he was in the crowd. She gazed list essly from face to face, until she reached the cul prit, who stood there, silent and collected, though asby pale. The expressive eyes of the dying woman fixed themselves on that face, and we could read the mingled emotions of fear, love and regret, moistening those brilliant orbs. She said 'twas the man, and his name Jose Maria

Dolores de Fuentes.

The man himself questioned her, asking he whether he had inflicted all those wounds. "(Fuentes," she exclaimed "let your own hear answer, you cut my throat and struck my hea against the door; that is all I recollect, for I tel senseless. I do not say that you used a hatchet, or the blow against the door stunned me. But never gave you cause for this, Pepe; I never id anything against you.

When the prisoner was being taken away, she called out to him, "I made no complaint against you, Pepe; the Recorder came to question me and I had to tell the truth," and she again repeated these words to the clerk, asking him to tell Fuentes that she had no ill-feeling against him.

Time fails us to give an idea of the distressin scene, which brought tears to many an eye.

It will be recollected that the Commission Patents, a short time since, overruled the cation of Mr. McCormick for an extension of his patent on reaping machines. He has written out at length his reasons for refusing a renewal. The patentee realized from his patents of 1845 and 1847 the sum of \$1,297,915, which the Commissioner considers ample compensation for the in-genuity and trouble expended, taking into con-sideration the fact that the great feature of the patent of 1847—the reaper's seat—is still the property of Mr. McCormick, and can be used only sub

AFRED MARES, Esq., says: "My wife has been sorely afflicted with Dyspepsia for the last year. During this time, she had used so many medicines which seemed to aggravate rather than remove the disease, that we almost despaired of her recovery. Living in the country, she enjoyed all the advantages of pure air and exercise, yet each day she seemed to be more enfeebled. With some difficulty, I persuaded her to take your Holland Bit ters, which, I am happy to state, has completely cure,

Dear Sir: Permit me the pleasure of stating to ou the gratification I have in vending, and the niversal favor Hoofland's German Bitters meet universal favor Hoofland's German Bitters meet with, by nearly every person who has had occasion to test their virtues in this vicinity. This establishment has had the Agency of your Medicine since 1853, and I can safely say, there has been no remedy placed before the public within the scope of my knowledge that has met so much general favor and so worthily as the German Bit-ters. I have no hesitation in recommending them to our customers, suffering with diseases for which they are appropriate, feeling confident from past experience that they will do all, and even more, than is promised of them. In Dyspepsia and Liver Complaint, I defy an equal. To Drug gists I can recommend them as a safe investment and to the public as a truly worthy remedy.

CALL attention to the notice of the Peorla Insurance Company from the Chicago Daily Press and Tribune, which notice was voluntary on the part of the editors who know what they say to be true. Such evidence must put to blush the petty malice aimed at the Peoria Insurance Company by some malicious slanderers of our city any by some malicious slanderers of our city any has a paid capital of \$300,000, and a sur he Company has a paid capital of \$300,000, and a sur-lus of \$52,000. This surely is a sufficient guaranty to Il who will insure. Its business is very large and relia-le. Reference to the only loss in Louisville for the last 2 months in the card of Wm. Musselman. I hereby in-tice those who want insurance to give me a call. The gency is now under the control of the underwriters of his city, but free and untrammelled. Risks taken on

igency is now under the property of the city, but free and untrammelled. Risks taken on my own judgment, and if any loss occurs, it will be paid promptly. Marine policies issued and 10 per cent. premium retained on all insurance, to be settled by note every six months.

JNO. B. McILVAINE, Agent of the Peoria Fire and Marine Ins Co.

At the office of J. B. McIlvaine & Son, No. 382 Main t, 1 door below Seventh. A CARD.

Our tobacco factory was very near being destroyed by fire on the night of the 7th of January, on Main-near Ninth streets. The roof being partially burned our boxes under press were removed in the street, and the Peorla Insurance Company, came very promptly and ordered the roof to be repaired, &c. Arbitrator were mutually chosen, the damages satisfactorily ar ranged, and he has this day paid the damages in full ranged, and he has this day paid the damages in tun, allowing claims for labor in protecting the house from the flames, and for removing the stock out and back into the house. And with promptness on the part of the agent, and on the part of the company in paying losses, I hope to see the Peorla office succeed to a good share of business in our city.

LOUISVILLE, January 20, 1859.

[From the Chicago Daily Free Press and Tribune, Feb. 12th, 1859.]
The Presia Marine and Fire Insurance Company.—It THE PRORIA MARINE AND FIRE INSURANCE COMPANY.—It is with pride and pleasure that we ask the attention of our readers to the statement of this company in our columns this morning. It is the first detailed exhibit of the condition of any home company that we have ever seen, and compares most lavorably with the statements of the best Eastern companies. Such an array of asset; amounting in all to \$352,505 24, skows most conclusively that we have a company in our own State, as sound and as well managed as any other, no matter where located. As it regards its promptness and liberality in the settlement of its losses, no company has a better reputation. The Peoria Company is doing business in most of the Western and Southern States, including Wisconsin, Michigan, Indians, Missouri and Kentucky, where it is obliged to file an annual statement of its condition and to comply with the same laws that are required of all Eastern companies. The fact that the company can comply with the laws of those States, which are regarded as very onerous by many companies, shows that it has the necessary capital, and as available assets as any other company, being subjected to the same provisions.

The Officers and Directors of this company are men of

it has the necessary capital, and as available assets as any other company, being subjected to the same provisions.

The Officers and Directors of this company are men of tried experience and unblemished integrity, and the success of the company proves that they have the requisite a bility to manage the affairs of such an institution. One peculiar feature in this company, which places its stability and permanency beyond a doubt, is, that by provision of its charter, if by any means the capital of \$300,000 should become impaired a single dollar, and should any policy be issued thereafter, the Directors render themselves personally liable for any loss that may occur.—As the Directors would not care to incur such a responsibility, and even if they did, as their aggregate wealth is quite large, the policy holders have an extra protection and safety by this provision of the Charter, which excellent supervision of J. Augustus Wraph, its efficient and enterprising agent in this city, the company has done a large and very prosperous business the past season, and we trust and believe it will be still increased from year to year. We are decidedly in favor of patronizing our own companies when we know them to be sound and well managed like the "Peoria." We have had insurance in the Peoria Company for several years, so that we practice what we preach, and we cordially commend it to our friends and fellow-citizens generally. feb2l dif

Watches made by Charles Frodsham, 84 Strand
indon, for the city of Louisville and State of Kentucky
S. WILLARD & SON, 9 Congress st.,
Sole Agents for the United States. WE call the especial attention of Seamstresses and Ladies in general, to DURKEE, HEATH & CO.'S CHARLES FRODSHAM'S WATCHES Celebrated Gold Eye Needles, SIMON WILLARD & SON. afactured expressly for our own trade, and gus e them as the most superior article of the kind eve ed in this market, and warrant them to give enti-

No. 9 Congress Street, Beston Sole Agents in the United States of America of CHAS FRODSHAM, 84 Strand, Lordon, would respectfully dive notice that, at the distribution of Prizes at the Grea Parls Exhibition, 1855, the GRAND MEDAL OF HONOR Was awarded to Mr. Frodsham for the perfection of the principle, mechanism, and performance of the Chronom-eter Watches exhibited by him, and styled his "NEW

SERIES."
The critical notice accompanying the award, writter
by a distinguished French Savan, says: "Mr. Frodsham
therefore, has rendered eminent service to science; it is
to that he be rewarded for it, at least with the culoistice that he or rewarded for it, at least with the emo-pium of public praise."

In the new series, Mr. Frodsham has succeeded by a nore perfect method of compensation, a more correct djustment in isocurouism, and in an entirely new and seculiar construction of the train, in producing watches inaffected by changes of remperature, position or mo-ion, or even violent exercise, and at the same time of purivaled securacy. nrivaled accuracy.

At the London Exhibition of 1851, Mr. Frodsham's ontribution was noticed as bearing the stamp of pectar merit, and being the flower of the English school.

n recognition of the excellence of the principle of him keepers, the British Government has awarded Mr redsham the sum of £3,170. Mr. Frodsham, after a great number of experiment came to the conclusion that the only way to improve the watch was by adopting the proportions of the Marin Chronometer, its tests and adjustments;—this Mr. Frod Chronometer, its tests and adjustments;—this Mr. Frodsham has done in the watches of the New Series, and has found that with strictly chronometrical proportions they are quite at variance with many of those of the best modern construction. Experience proves the New Series Warchest to be stronger, more powerful, and more accurate than any heretofore produced. The manipulation or mechanical excellence of finish of the work, each Watch being a model of perfection. The final adjustments of Compensation, Isochronism, Positions,—whereby neither extremes of temperature, violent excreise, nor change of place, have any appreciable disturbing effect.

As a pecuriar advantage, there is no danger of stop-As a pecuriar advantage, there is no danger of stop-ping under the most violent motion, either in the cars, on horseback, or in any vehicle.

In over one hundred lastances these watches have od the test of actual daily noting, and have exhib as a result, a rate equal in regularity to the best Ma rine Chronometers. In several instances, their performance at sea has been superior to the Chronometer. To those who reside on the line of railroads, or whos

vocations taking them frequently in the cars, make erfect timekeeper less of a luxury than a necessit ness Watches are recommended with the most comple confidence.

Win. Brown, Esq., a distinguished engineer of Ohi
writes of these watches: "Finally, from what I ha
known of Frodsham's Watches, I am strongly impre s
with the lica that they are a decided improvement
all other time-pieces, and were they set in gimbals, a sed with some care, I think their performance wor equal that of Mr. Frodsham's celebrated Box Chronom er, and would answer the same ρurpose for determini

Bostox, Dec. 1, 1856.

Messrs. Willard & Son—Gents: The gold watch, Chairodaham, No. 7,166, I purchased of you, has performe with wonderful accuracy. During the three years I have owned it, it has never been one minute from the trutime, and for one period of nine months its variation wall east than two seconds. I never supposed a pocket wate capable of such perfection of time. Yours, truly, I never supposed a partial of time. Yours, truly, then of time. Yours, truly, F. W. THAYER. Boston, Nov. 30, 1856.

Messrs. Willard & Son — Gentlemen: The Charle Prodsham Watch, No. 8,629, I purchased of you layear, has performed with all the accuracy of a Marin Chronometer, keeping a rate with astonishing regular ty. For the last eighty days its variation has been by one second. second.
Yours truly, OLIVER ELDREDGE, late of the U. S Steamship Atlan

Mesars. S. Willard & Son-Gentlemen: I take much satisfaction in bearing testimony to the extraordinary performance of the watch I purchased of you, made by Chas Fsodsham, of London, No. 7,696.

During the two years I have worn it, I have never known it to he one minute in error, and for part of the time its accuracy has been so remarkable that I should hardly have believed it had it been told me by another person. person.

By my record, the watch exhibits the following remarkable result:

1857, December 18, slow 35 seconds,
1858, January 19, " 34 "
1858, February 12, " 30 "
1858, March 15, " 33 "
1-58, April 26, " 30 "
1858, May 31, " 34 "

Thus showing from actual noting a variation of fiv seconds in as many months. I may also mention that have never favored the watch in any way, but have use have never tayored the watch in any way, but have used it daily about my usual occupations.

Lest I may be accused of exaggeration, I will not express the high estimation in which I hold these watches; but will simply say that, taking into consideration the difficulties in the way of perfect timekeeping, their performance is marcellous.

G. W. Hallett.

The underwriters, of Boston, have shown the estimation in which they hold these watches by the number they have purchased for presentation to meritorious of beers. Among those who have received these testimonificers. Among those who have received these testimonials of distinguished respect, may be mentioned—
Lieut. S. DECATUR FENCHARD, U. S. Navy.
Commander MURE and Officers, U. S. S. Hetzel.
Capt. PITMAN and Officers, Ship Manllus.
Capt. GRIFFITH MORRIS, Steamer R. B. Forbes.
Capt. BROCK, Ship Noonday.
Capt. I. S. RAMES, Ship Santiago.
BBEN S. SMITH, Esq., of Provincetown.
Weshall take pleasure in showing the above watches to any one desirous of examining them.

DR. JOHN BULL'S Compound Pectoral of Wild Cherry,

For the complete Cure of Coughs, Colds, Asthma, Bronchitis, INFLUENZA, PAIRS IN THE SIDE AND BREAST, SPITTING OF BLOOD, AND CONSUMPTION,

Is rapidly advancing in the estimation of the public. It is no empirical nostrum; its component principles are made known to the entire medical faculty. It is prepared accurately from the recipe an experienced and talented phy cian, and has proved itself to be the greatest remedy for all diseases of the Lungs ever discovered; and wherever it has been introduced it has made cures which are perfectly astonishing. It is bound to supersede every other Cough Medicine before the public. Testimonials are daily being sent in to the propri-ctor, of cures effected even after physi-cians had abandoned every hope. A single trial will convince the most incredulous of its efficacy in curing that class of diseases for which it is designed. Why is it that so many die every year its sure forerunner—a "simple cold,"—which might be easily cured by the prompt use of a single bottle of Dr. John Bull's "Compound Pectoral of Wild Cherry." We say, therefore, Try it, by all means. It this does not cure

EXPERIENCE THE BEST TEST! HEGEMAN, CLARK & CO.'s GENUINE COD LIVER OIL Has been proved by twelve years' experience the best

remedy for Consumption, Scrofula, etc., and is recomnended by the most eminent physicians. CAUTION .- Beware of preparations pretending to pos ess the properties of the Oil in concentrated form, as many of them are worse than useless. The PURE OIL has been found to act better and have more speedy effect than any jelly or other preparation of it. Sold by druggists generally.

DEGRATH'S ELECTRIC OIL .- This Oil acts on the system with electricity. Is of pure vegetable preparation, not the slightest danger of applying it outwardly or inwardly; it at once gives a permanent cure, in most cases, from ten to twenty minutes. The best physiologists of Europe have discovered that all Organic Derangement in the Animal System is the efect of an obstruction of the Physico-Electro Fluid in

This is a purely vegetable compound, prepared on scrictly scientific principles after the manner of the celebrated Holland Professor, Borrhave. Because of its great success in most of the European States, its introduction into the United States was intended more especially for those of our fatherland scattered here and there over the face of this mighty country. Meeting with great success among them, I now offer it to the American public, knowing that its truly wonderful medicinal virtues must be acknowledged.

It is particularly recommended to those persons whos soonstitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way directly to the seat of life, thrilling and quickening every nerve, rasing up the drooping spirit, and, in fact, infusing new gas As the Agent of the above insurance Company, I solicit those wanting Fire or Marine Insurance to examine their report, which must convince every one that it has a solid foundation for the payment of all losses, and the public may rest assured that I would not have taken the agency had not I felt well satisfied of its ability to pay every loss it may sustain. THE FRESHET IN THE OHIO-THE HIGHEST WATER IN FIVE YEARS—TWENTY SEVEN FEET ON THE FALLS.
THE WHARFAND THIRD STREET BRIDGE SUBMERGED.
—The river up to five o'clock last evening had continued to rise at the rate of three linches per hour, or 6 feet in 24 hours, with fully 27 feet wate on the falls. During the 24 hours ending with Sa turday evening, the rise was also 6 feet 18 feet in the three days past. Last night the river was still steadily rising, though not as rapidly as during the day, the rise being a little less

than two inches per hour.

The river is now much higher than it has been since 1854, with the water on the first floors of all the houses on Water street below Fourth in most of the cellars of the houses some distance up the cross streets. The only wharf visible, last evening, was the new Fultz wharf, extending along what was formerly Strader's row, from Third to First streets.

The Third street bridge is fully four feet under water, and at dusk last evening the river's surface was up to the flooring of the Second street bridge, and we think it will go under to-day.—
Then the only dry landing will be at the new wharf, opposite First street. That is an excellent wharf, and we think the medil heat will be desired. wharf, and we think the mail boat will be found

there this morning.

The greatest excitement and confusion prevailed yesterday among the denizens along Water street, and on the cross streets in the vicinity of the river. They were all moving out, or hoisting their goods and chattels from their lower to their upper stories, and draymen and laborers were in creat down.

The Universe, which left Cincinnati at midnight on Saturday, arrived here last evening, and we learn from the captain that the river at that point was nearly to the top of the wharf, and rising at the rate of about four inches per hour. That will certainly keep the river rising here all day to-day, hough not as fast as heretotore. Capt. Sanders, of the Dove, who came down from Frankfort Saturday evening, reported the

Kentucky river slowly falling at that point. It had been at flood hight, but as it was then subsiding, it gives hopes that the rise at this poin will not be much above its present altitude The river has covered the point, invading the lumber yards and saw mills, and flowing freely through the works of the rolling mill, and a fur-ther rise of five or six feet will be apt to float or carry off millions of feet of lumber, piled "over

The town of Shippingsport is under water, and at Portland last evening, the waters of the Ohio swept the curbing of the stores along Water street, while the back water was surrounding the town. At New Albany the river had risen to within three feet of the pavement in front of the

Skiffs were in great demand yesterday, to re-move parties from their houses to the streets, or from boat to boat in front, with but very little business doing, and no movement in freights.

The river last night was rising about one included a half per hour, and was then within a little

over six feet of the paper mill.

The encroachments of the river among the cellars and warehouses along Fourth street, caused the removal of the groceries, goods, and produce stored away. Timely removal saved all from damage, and we have heard of no serious losses. Messrs. Newcomb & Bro. moved from their ce lars 850 hhds of sugar, and Sherley, Bell & Co and others, were compelled to haul off some 30 bbls of salt stored in the alley between Third at Fourth streets. Clifford & Co., Moorhead & Co. enton & Glore, and others were hard at work a day removing potatoes, bay, and other produce to the upper stories of their warehouses. All the denizeus along Water street have been com-pelled t. go higher, and the Gas Company shut off the gas all along the river, and dismantled

ne gas posts.
The river is now several feet higher than at an time since 1854, now nearly five years. Then the river commenced rising very rapidly on Wed-nesday, the 8th of March, with very heavy rains, and on Friday, the 10th, it was raining and rising at the rate of 5 inches per hour. On Saturday the water was on the first floor of I. S. Moorbead's store, on Wall street, and on Sanday there were 36 feet water on the falls. The next day the river commenced falling, followed by cold weather and ice. The river now is not as high as it was then by 6 or 8 feet. In the memorable floods of '47 and '52, the river for 48 consecutive hours rose 4 inches per hour. There was a high wind and storm Saturday night,

on the river, which tore the High Flyer and Lady Pike from their moorings, at Portland, and carried them below New Albany. In their course they struck the Bowling Green, breaking her water-wheel, guards, and pitman. The Lady Pike soon had steam up, and towed the High Flyer up to Lefferneyville.

The weather was cold and clear last night, with no doubts of frost, which will have a tendendy to check the rise in the river. At 10% o'clock last night the water was beating against the flooring of the Second street

The famous High-Flyer resumes her place the St. Louis trade on the 1st of March, on nesday—her regular day.

Among the arrivals at New Orleans on the 17th, was the Madison. The departures for the Ohio included the Fred Tron, Robt. J. Ward and Flora Temple. The last is an outsider. THE NEW COAST PACKET .- Capt. Wm. C. Hite

who is superintending the construction and out-at of the new boat for Gapt. Cotton for the New Orleans and Bayon Sara mail trade, was over at New Albany Saturday, and we learn from him that the work on the boat is being rapidly completed. Her immense chimneys were ready to be elevated, and will be put up to-day, and she will be ready to start South on her first trip between the 10th and 15th of March.

Capt. Hite has received unlimited orders to make the new boat the finest and the most complete passenger packet built since the advent of

he great Eclipse. Her rooms will be sun ed, and the painting and ornamental works of the cabin the finest ever seen. BOATS TO BE SOLD .- The little Bowling Green as she lies at Portland, is to be sold at Marshal's

The John Raine, of the splendid Lightning Line fleet, arrived from New Orleans early Satur-day morning, with a heavy load—fully 500 tons— of sugar and molasses for this port. She lost 18 hours in fog in the Ohio river. Her manifest we

published several days ago.
Owing to the rapid rise of the river, which submerged the wharf, the freight of the Raine was discharged but very slowly, and Capt. Under-wood will hardly be able to return South this

The late rains and warm weather have been general all over the West and South, as well as this region. The Missouri is open and free of ice to St. Joseph, the Illinois to Peoria, and the Mississippi rising fast at all points. All these rivers rising at once, together with the present freshet in the Ohio, will be very likely to cause another flood in the Lower Mississippi, and prove disastrous to farmers and planters in all directions.— The Arkansas river is also reported rising, with several days rain along its banks, and the people on the coast had better prepare for the flood. The Dardanelle, a small thing, is reported sunk in the Arkansas, above Little Rock.

The Nashville papers give the particulars of the loss of the Quaker City by fire at that port. She was burned to the hull, together with 14 bales of cotton. It is supposed that the boat took fire from the deck stove pipe which extends through the washroom, next the ladies cabin.

FOR THE EAST. - The low pressure Jacob Strade is the mail and passenger packet for Cincinuati and the East, at noon, to day. She travels at locomo-tive speed, has good officers, and can accommo-date 300 passengers. The attentive clerk, R. S. Dunning, is prepared to give through tickets.

She discharged considerable freight at Evans-ville for New Orleans, and we learn that there are 1,000 molasses barrels at that point, for the coast, to be filled with molasses for a house in this city.

The Tempest, Capt. Parr, from Nashville, as will be seen by our especial dispatches, passed Evansville Saturday. She was due last night.

ANOTHER CLIPPER FOR THE SOUTHERN TRADE.— Capt. John Cannon, of the Vicksburg, has finally closed his contracts for a new boat for the cotton trade between new Orleans, Vicksburg, and "the bends." He at first contemplated building a light, short boat, but hearing that the New Orleans and Vicksburg Mail Line had determined to "run him out," he has concluded to build a clipper that wont be very easily run out. She is to be 280 feet in lenght, with 40 feet beam, and a model ex pressly for speed. The engines are to be each 34 inches in diameter, with 10 feet stroke-the largest on the river. She is to have 7 double flued boil ers, each 40 inches in diameter, and 30 feet in length. It is stated that Lent, South & Ship-man are to build the machinery.

Capt. Holmes, as we have already stated, changed the dimensions of his new mail packet building at Cincinnati. She is to be 275 feet in length, and her cylinders will be 36 inches in diameter. The Alonzo Child, Capt. Holland, has withom the South, and gone into the Missouri iver trade again.

Capt. Geo. W. Norton, of Wheeling, was the city Saturday. The Pacific and Woodford, from New Ors, are due to-day.

The Empress, having been delayed by bad weather, and a wharf knee deep in mud, was not able to get her freight on board till vesterday. She started to New Orleans about noon The Scioto No. 2, is the packet for Hender son and all way places this afternoon. She is in charge of Capt. Ballard, with Jerome Duncan in

XXXVth CONGRESS-SECOND SESSION.

Friday's Proceedings.

Washington, January 18th, 1859.—Senate.—
The only business of interest during the morning our, was the report made by Mr. Polk, of Mo., or the Committee on Foreign Relations, to pay Mr. Squire, late Charge d'Affairs to Guatamala, \$4,500 as a compensation for extra services. The bill provoked much discussion, both for an Mr. Hunter, of Va., endeavored to have the

onsular, and Diplomatic Appropriation bill taken p, but the motion was defeated. The private calendar was taken up by a vote of eas 29, nays 21.

After the consideration of a few private bills, an mpertant special message was received from th President, asking Congress to confer upon him power to use the army and navy to protect the transit route. It was partially debated by Messrs. Clingman, Benjamin, Douglas and Davis, more or

less in favor; and by Seward and Fesseden, the roughly against it.

Without action, the Senate adjourned.

The Senate, after the discussion of a few private pension bills, received a message from the President, which is given below in detail. A paritial debate took place on a motion to refer the message to the Committee on Foreign Affairs. Mr. Clingman, of N. C., and Mr. Benjamin, of La., spoke briefly in support of the views of the message.

Mr. Seward, of N. Y., considered that it was a

Mr. Seward, of N. Y., considered that it was a sad sight to see the President of the United States asking Congress to confer on him the warmaking power, in order to assimilate his functions to those of European governments. The passage of a bill granting the President such power as he asks would be a virtual surrender of the powers of Congress, and in opposition to the express precepts of the Constitution.

Mr. Fessenden, of Maine, expressed similar views, and cited the Paraguary expedition, which was to consist of a single ship, and is now an armada of twenty sails, to show how the President might plunge the nation into war. The President now comes forward and asks for general power. It would be more rational to take initiatory

er. It would be more rational to take initiatory steps at once to have a king, than blindly to con-

er absolute power on a President. or absolute power on a President.

Mr. Douglas, of Ill., was glad that the President had called attention to this subject. He conidered that the President should have power to teep open the transite route to our citizens and commerce. Moreover, he ought to be invested vite power, to summarily enforce redress for any strages on our flag, our citizens, or our property whenever it may occur. The executive of every ther nation has it. Mr. Douglas did not mean to ive a special vote of confidence in the presen xecutive, but he was content to entrust that pow r to him and his successors, in all time. Ou olicy is to make the executive strong abroad; to nake the American name respected, but not un-Inited Staes. He hoped this message would ori inate a more vigorous and efficient foreign

olicy,

Mr. Davis, of Miss., could not concur in the loctrine of the Senator from Illinois to its full exent. There is no foreseeing to what limit it night not extend, if urged by ambition or by any other feeling. That we want to invest the Execu-tive with more power than our forefathers gave, only marks the decedance of the American people Mr. Davis would prefer the delay of Congressiona action, to the surrender of a great constitutional principle; but he did not understand the Presi-tient as asking for undue or irresponsible powers. The transit route was constructed by American citizens, with American capital, and is, therefore an exceptional case. Mr. Davis would grant the executive the power he asked, but would limit it

o the special case, which is known to exist Mr. Green, of Mo., obtained the floor, and ex ressed himself ready to go on with his remarks Several Senators proposed to adjourn, where upon Mr. Green said this was one of the mos portant messages ever before the Senate, and ought to be carefully understood, he would therefore defer his remarks—and the Senate ad-

House .- Mr. Davis, of Miss., replied that the eople of his State were able to defend themselves vithout arms, against northern or foreign invaders with arms.
Mr. Comins said that he did not mean to reflect

apon the people of Mississippi.

Mr. Washburne of Ills., moved an an protecting military reservations from tresspass, and stated that the Rock Island reservation was being stripped of its timber and despoiled of its ralue, and that the War Department was making to adequate effort to protect it. After some deoate the amendment was rejected.

The House went into a Committee of the Whole on the Army Appropriation bill.

Mr. Staunton, of Ohio, offered an amendment to

strike out the appropriation for recruiting, by which he proposed to test the sense of the mem-bers as to whether they were in favor of a reducon of the army.

During the debate, Mr. Lovejoy, of Ills., said that he wanted to put the army between the chartening up that he wanted to put the army between the horns, so as to have merely a skeleton hung up for the study of practical anatomy. He was creditably informed, and believed that the army was used to get up Indian wars, and establish garrisons to advance the price of town lots. Some months ago, there was a just cry against the Morphony and it was night that they should be Mormons, and it was urged that they should be exterminated, merely because they preferred white concubines to black. [Laughter.] He was proceeding to reply to Mr. Letcher's remarks of yesterday, when he was called to order by Mr. Phelps, of Mo., for irrelevancy. Mr. Lovejoy said that the point of order plways comes from the year.

he point of order always comes from the vas eep when the harpoon touches the blubber.
Mr. Phelps, joining in the laughter, said that he ad only insisted on an observance of rules. Mr. Staunton's amendment was rejected. Yeas 5; nays not counted. Mr. Comins, of Mass., said that he did not desire our army to be like the militia of Mississippi, which, according to an editor of that State, had an abundance of officers, but no arms or privates.

Mr. Faulkner offered an amendment cutting of the brevet pay. He said that there exists through out the country a strong impression that the prevet rank is demoralizing and leads to subser-viency and favoritism.

Mr. Bonham, of S. C., trusted that this step

would not be taken, as it would cut down the pay of the general commanding, Lieutenant General Scott, who had fairly won every dollar that had een bestowed on him.
The amendment was rejected—yeas 40, nays 80. The other amendments were acted on, and the ommittee rose.

Mr. Nichols asked leave to offer the following

low priced than on fine goods. The same principle prevails on cottons, silks and linens, the comnon qualities thus paying less than those which are more expensive.

It is said that experienced men concede that i

can be executed at much less per annum than the present revenue law. They estimate that on an average importation of goods, which, under the present tariff, would value \$48,000,000, and in Mr. Morrill's bill would realize much more, its average rate of duties will be less than the average end in the tariff of 1856, but will, it is claimed be more satisfactory in its discriminations to the various interests of the country. Such are the representations of its friends.

The President's Message to Congress.

WASHINHTON, Feb. 18.—The President to-day transmitted a message to Congress, as follows: e Senate and the House of Representative -The brief period which remains of your present sion, and the great urgency and importance of islative action before its termination, for the rotection of American citizens and their proper-y while in transit across the Isthmus routes be-ween our Atlantic and Pacific possessions, rentween our Atlantic and Pacific possessions, render it my duty again to recall this subject to your notice. I have heretofore presented it in my annual message, both of December, 1857 and 1853, to which I beg leave to refer. In the latter, I state that the Executive Government of this country, in its intercourse with foreign nations, is limited to the employment of diplomacy alone; where this fails, it can proceed no further. It cannot legitimately resert to force without the direct authority of Congress, except in resisting and repelling hostile attacks. It would have no nd repelling hostile attacks. It would have no and repelling hostile attacks. It would have no authority to enter the Territories of Nicaragua, even to prevent the distruction of the transit and to protect the lives and property of our citizens on their passages. It is true, that on a sudden emergency of this character, the Presi-dent would direct any armed force in the vicinity to march to their relief, but in doing this he would act upon his away responsibility. Under these ct upon his own responsibility. Under ircumstances, I earnestly recommend to Co he passage of an act authorizing the respective ander such restrictions as they may deem proper to employ the land and naval forces of the United States, in preventing the transit from being obstructed or closed by lawless violence, and in prostructed or closed by lawless violence, and in prostructed or closed by lawless violence, and in prothe lives and property of American citi-teens traveling thereupon; requiring at the same time that these forces shall be withdrawn the moent the danger shall have passed away. Withou ach a provision our citizens will be constantly ex osed to interference in their progress and

wless violence. A similar necessity exists for the passage of such an act for the protection of the the passage of such an act for the protection of the Panama and Tehauntepec route.

Another subject, equally important, commanded the attention of the Senate at the last session of Congress. The republics South of the United States on this continent, have, unfortunately, been frequently in a state of revolution and civil war, ever since they achieved their independence, as one or the other party has prevailed and obtained possession of the ports opened to foreign commerce. They have seized and confiscated American vessels and their carross in each party and can vessels and their cargoes, in an arbitary and lawless manner, and exacted money from Ameri-can citizens by forced loans and other violent proceedings, to enable them to carry on hostilit The executive government of Great Britain, France and other countries, possessing the war making power, can promptly employ the necessary means o enforce immediate redress for similar outrages opon their subjects.

If the President order a vessel of war to any of these ports to demand prompt redress for our rages committed, the offending parties are we ware that, in case of refusal, the commande could do no more than remonstrate. He can resort to no hostile act. The question must then be referred to diplomacy, and in many cases adequate redress can never be obtained. Thus American citizens are deprived of the same protection, under the flag of their country, which the sphicets of other neglook entry. subjects of other nations enjoy. The remedy for this state of things can only be supplied by Con-gress, since the Constitution has confided to that gress, since the Constitution has confided to the authority of Congress the Executive cannot lawfully direct any force, near, it may be, the scene of difficulty, to enter the Territory of Mexico, Nicaragua, or New Granada, for the purpose of defending the persons and property of American citizens, even though they may be American citizens, even though they may be violently assailed while passing in peaceful tran-sit over the Tehauntepec, Nicaragua or Panama routes. He cannot, without transcending his constitutional power, direct a gun to be fired into a port, or land a seaman or marine to protect the lives of our countrymen on shore, or to obtain redress for a recent outrage on their property. The banditti which infest our neighboring Re-public of Mexico, always claiming to belong to one or the other of the hostile parties, might make a sudden descent on Vera Cruz, or the Te nuantepec route, and he would have no power to nploy the force on ship-board, in the vicenity for their relief, either to prevent the plunder of our merchants, or the obstruction of the transit ute. In reference to countries where the local authorities are strong enough to enfore the laws the difficulty here indicated, can seldom happen; but where a this is not the case, the local authorities do not possess the physical power, ever if they possess the will, to protect our citizen-within their limits. Recent experience has shown that he American Executive should itself be au-thorized to render this protection, Such a grant of authority, thus limited in its extent, could, in no just sense, be regarded as a transfer of the war making power to the Executive, but only as an appropriate exercise of that power by the body to hom it exclusively belongs. The riot at Panama 1856, in which a great number of our citizenest their lives, furnishes a pointed illustration of he necessity which may arise for the exertion this authority. I, therefore, earnestly recommend to Congress, on whom the responsibility exclu sively rests, to pass a law before their adjourn sens in the cases which I have indicated, under such restrictions and conditions as they may deem advisable. The knowledge that such a law exists would of itself go far to prevent the out-rages which it is intended to redress, and rend r placed in a painful position before the meeting of the next Congress. In the present disturbed condition of Mexico, and one or more of the other Republics South of us, no person can fore-see what occurences may take place before that period. In case of emergency, our citizens, seeng that they do not enjoy the same protection with subjects of European governments, will have ust cause to complain. On the other hand ould the Executive interfere, and especially should the result prove disastrous and valuable ives be lost, might subject himself to severe censure for having assumed a power not confided to him by the Constitution. It is to guard against this contingency that I now appeal to Congress. Having thus recommended to Congress a measure which I deem necessary and control the whole subject to their wisdom.

OUR stock for the approaching season offers inducements to purchasers visiting our market, which have never been equalled hitherto.

In consequence of the demise of our late partner, Mr. S. Lowenthal, and in order to come to a clear set tlement with the administrator and heirs of Mr. Lowenthal's estate, we have been obliged to dispose of our entire stock on hand, and start afresh with a selection of SPRING AND SUMMER GARMENTS which have just been gotten under the superintende of our Mr. Oberndorfer, in New York. In the

CLOTHING TRADE it is an entirely new feature to find a new and select stock that does not show the traces of inexperience. Our Mr. Oberndorfer, however, is not only acquainted with the Eastern markets, but he combines therewith a thorough knowledge of our home wants, and has thus been enabled (in taking the place of the late deceased Lewenthal) to get up an assortment that will at once convince every judge that fitness for our market, taste, variety and cheapness, have all been held strictly in view during the process of manufacture.
